FELEX based strategy game! Awards GameFocus Game of the Week (Dec 01, 2000) GameFocus Game of the Month (Dec 01, 2000) Strategy category at the Electronic Entertainment Expo (E3) (June 00) Fate of the Dragon The popular strategy game, Fate of the Dragon, is coming back to life! This real time strategy game sold in 2000 by Diales (Copyright 2000) was built on .FELEX 2000 and sold for Windows 95 and Windows NT. It is a fantasy strategy game with a 3-D view in full 3D and 3D2D and a realistic look of the scenery. Since it has been so long since we released it, we chose to limit ourselves to just the Windows 95 version and we will release a new version for Windows 2000 when it comes out. The game was really popular at the time of the release, so we want to make it available to as many people as possible. Requirements: Windows 95 240 Mb of free hard drive space The setup package is about 320 Mb of hard drive space. Instructions: The setup packages are ready to install and will ask you if you want to install Fate of the Dragon or if you want to replace the existing games. The game is installed in the folder "Fate of the Dragon" in the game folder. You will find an icon on your desktop and a shortcut in the Start menu. Once the installation is complete, you will be able to launch the game anytime you want. For a better view, we recommend you to upgrade your screen resolution to 1024 x 768. The game is dedicated to the computer monitor resolutions that you have, so we made the game fit for all of them. If you have an old monitor, you can download the magnifier for Windows 95 that we include in the installation. It makes the game easier to play. Fate of the Dragon is a strategy game set in the year "A7/A10", 2,664 years after the rise of the Ancients. The game takes place in the lands of Ixias, a northern kingdom. It is the epic struggle of the Dragons, controlled by heroes, against the Ancients. The action will take place during a very important period of history: the 82157476af
